General strategy and activities

# EUROLAB Key Objectives:

**eurolab Danmark**  
Foreningen af laboratorier i Danmark

1.

**Representing the European conformity assessment sector** regarding political and technical issues having a **direct impact on the European Quality Infrastructure**, while contributing to the safety of consumers, businesses competitiveness, to the sustainability of the internal market and harmonization of accreditation.

2.

**Networking and knowledge sharing** with key stakeholders having activities of direct impact on the Quality Infrastructure and in the conformity assessment field, thus striving to avoid duplication of efforts and activities, while enforcing the voice of the conformity assessment sector.

3.

**Act and contribute** whenever needed on key regulatory developments by providing adequate means for **sharing of information**, experience and technical expertise through the publication of Position Papers, Technical Reports, CookBooks, Seminars, and Technical Working Groups.
